Sharvari Lokegaonkar

Mumbai, India • sharvari0913@gmail.com • +91 9588462510

Education

MPSTME, NMIMS University — Mumbai, India
B.Tech, Data Science. CGPA: 2.9/4.00 — Expected 2027

SNBP Junior College — Pune, India
HSC: 60% — 2023

The Bishop's Co-Ed High School — Pune, India
ICSE: 90.2% — 2021

Projects

Portfolio Risk Analysis & Optimization — Python, Modern Portfolio Theory

- Optimized asset allocation across 10 Indian stocks using Modern Portfolio Theory, identifying an allocation with 21% expected return
- Calculated Value at Risk (VaR), Sharpe ratio, correlation, and maximum drawdown to evaluate portfolio risk-return tradeoffs

Forecasting Apple's Revenue Analysis — Python, Time Series, Data Visualization

- Forecasted Apple quarterly revenue using time-series models on multi-year financial data and analyzed patterns in revenue growth
- Visualized historical trends and scenario-based revenue outlooks to communicate model results and business implications

Capital Expenditure Forecast & PCA – Pune Municipal Corporation (FY 2016–2026) — Python, Statistical Modeling

- Analyzed 10 years of public-finance data to identify spending patterns and budget allocations across departments, and built time-series forecasts of future capital expenditure
- Applied Principal Component Analysis to identify the key factors driving expenditure variability for clearer financial interpretation

AML/Fraud Transaction Monitoring System — SQL

- Built a SQL-driven transaction monitoring system to analyze 27,000+ transactions and flag anti-money-laundering (AML) and fraud patterns
- Wrote structured queries and detection logic to surface anomalous transaction behavior for compliance-style risk screening

Certifications

Financial Analysis Fundamentals – Corporate Finance Institute (via Coursera) — September 2026
Financial Modelling, Valuation and Analysis – Corporate Finance Institute (via Coursera) — September 2026
Risk Analyst Virtual Experience Program – Goldman Sachs (via Forage): credit risk assessment, financial statement analysis, risk reporting
Bloomberg Market Concepts (BMC) – Bloomberg
Managing Projects – Coursera

Experience

HM Services | Data Analyst Intern — Oct – Dec 2025

- Built AI-driven procurement forecasting models that improved logistics turnaround by 15% across operational sites
- Engineered real-time dashboards integrating multi-source telemetry across 7+ hubs
- Deployed predictive maintenance models that reduced unscheduled downtime and improved operational reliability

Triumph Blood Bank | Intern — May 2024 – July 2024

- Standardized intake templates across 7 outreach events, reducing manual-entry errors and improving consistency of collected records
- Structured and organized donor and outreach data to enable faster reporting for program coordinators
- Documented data-collection workflows to improve repeatability across future outreach cycles

Dr. Pallavi's Clinic | Database Developer — October 2023 – January 2024

- Migrated 10 years of clinic records (2013–2022) to PostgreSQL, using Python to clean and standardize the data
- Designed a normalized schema and indexing strategy to speed up long-term patient history lookups for front-desk use

Google Girl Hackathon – Google India: cleared 2 selection rounds
TenzorX Hackathon – Poonawalla Fincorp: cleared the hackathon; top 5 teams in university

Leadership & Activities

Executive Member, Innovation & Entrepreneurship Cell (IEC), MPSTME
Mentee, Codess Café — December 2023 – Present
Sub-Head, SNBP Junior College
Prefect, The Bishop's Co-Ed School

Skills & Interests

Finance & Risk: Financial Statement Analysis, Credit Risk Assessment, Value at Risk, Risk–Return Analysis, Portfolio Optimization, Financial Modelling & Valuation, Forecasting
Technical: Python (Pandas, NumPy, Matplotlib, Scikit-learn), SQL, R, MS Excel (Pivot Tables, VLOOKUP/XLOOKUP), Git, GitHub, Streamlit, Bloomberg Terminal
Statistics: Probability Distributions, Maximum Likelihood Estimation, Statistical Modeling, Model Evaluation
Language: English, Marathi, Hindi (fluent); German (A1–A2, CEFR)
